

function+ | Free activation of IntelliGuide Classic For SAWTEQ S-300/ 310 and S-400/ 410 in tapio-countries

With your new SAWTEQ S-300/ S-400, you get the unique "IntelliGuide Classic" operator assistance system as standard equipment. To activate this great feature permanently, all you have to do is follow the steps below.

THE STEPS AT A GLANCE

1. Obtain the free and perpetual license for IntelliGuide Classic from mytapio.one:

- Logging in to tapio (mytapio.one) **1**
 - Select your new SAWTEQ **2** and switch to the tab „function+“ **3**
 - Consent to display function+, if not already done so **4**
 - Selection of the function+ feature IntelliGuide Classic (click on "activate free of charge") **5**
- Afterwards, the button will show "in progress" **6** and you as tapio account holder will receive two e-mails:
- a) The "purchase" confirmation for IntelliGuide Classic (immediately)
 - b) The information about the existence of the license for IntelliGuide Classic (max. 48 hours after "purchase"). After this mail, one more step has to be taken on the machine:

2. Activation of the license for IntelliGuide Classic on your SAWTEQ:

- Open powerTouch start menu → More Apps → Service → License management **7**
- Select the license for IntelliGuide Classic (below program „CADmatic“) **8**
- Select "Request" and confirm your machine number
- Enter the HOMAG eXtranet credentials (your eParts-Access) **9**
- After receiving the license **10** → Close license management
- Restart of machine control („Log-Off“ is enough) **11**

WHAT DO I NEED AS A CUSTOMER?

- Your tapio-Account
 - HOMAG eXtranet Account with access to eParts;
- If you don't already have one:
<https://myprofile.homag.de/registration/register.aspx>
 (please fill in also your HOMAG customer number)
